ATN 6-18X65

DAYTIME RIFLESCOPE

This rugged variable power scope has one of the largest diameter front lenses available. A 65 mm objective lens provides the user with the ultimate in image brightness. An array of features that will dazzle any marksmen include parallax-free construction; 6 to 18 variable Power Zoom, 500-Yard Bullet drop Compensator with interchangeable cams for six calibers, 1000 Yard Range Finder and a super sharp, illuminated Reticle with 12 light settings. Additional features include 1/8 MOA adjustment at 100 yards, 100% weather resistance and Matte Black mil-spec finish with beryllium powder coating.

Scope comes complete with a battery, 6 Interchangeable Cams, sunshade, instruction manual and custom 30 mm mounting rings.

The ATN 6-18x65LU is the ideal scope for target and varmint applications.
