

AMERICAN TECHNOLOGIES NETWORK, CORP.

MO-4

Available in 1st, US 2nd+, US 3rd or 4th generation, the MO-4 is so packed with features that it is unsurpassable by competitors in the same field. High grade light intensifier tubes and precision optics provides the MO-4 with the highest brightness output available. Not only does it have unbelievable light amplification, it also provides superior clarity and high magnification. The MO-4 comes standard with our cutting edge "SMART" technology. This technology consists of a computerized proximity sensor, digital controls and a long-range infrared illuminator. The proximity sensor will automatically turn the unit on and off when it is brought to the viewing position. This helps save your battery life and the life of the unit itself. The digital controls allow you to activate or deactivate all of the features of the MO-4 with an easy push of a button. We also built a powerful infrared illuminator into the scope. This allows you to see even in total darkness with outstanding clarity. Available in 1st, 2nd, 3rd or 4th generation.

Model Number:	Tube configuration:
MO4-1	1st gen.
MO4-2	US 2nd + gen.
MO4-3	US 64 lp/mm 3rd gen.
MO4-XD4	64 lp/mm XD-4
MO4-4	US 64 lp/mm 4th gen.
MO4-XR5	64 lp/mm XR-5

- Total darkness IR.....Standard
- Magnification.....3x
- Lens system..... F1:1.7, F90mm
- FOV..... 14°
- Diopter adjustment.....±5
- Power supply..... two 3 volt lithium (included)
- Range of focus..... 2.4m to infinity
- Controls..... Digital
- Battery life.....10-15 hours
- Dimensions.....200mm X 75mm X50mm /
8" X 3" X 2"
- Weight.....0.8kg / 1.8lbs
